Four hundred years ago, the planetary alignment and house association was as follows: the Sun was in Leo, Mercury was in Virgo, Jupiter was in Sagittarius, Saturn was in Capricorn, Mars was in Aries, and the Moon was in Cancer, sitting in their own homes i.e. a fusion of planets occurred four hundred years ago.

This alignment is going to repeat on September 13th at 10:27 am. The 6 planets are sitting in their own houses so that e.g. Venus will be in it's own house, Libra etc. It's a lockdown of the six planets similar to what we have faced during this pandemic. Due to this, Mars (Kuja/Mangal) and Rahu are coming face to face. These results are going to influence human beings for up to a year, so it is necessary to perform special homas during Navaratri. This eradicates all doshas immediately with these special yajnas being performed.
